

Future Mall Protection Plan

Project ID: EYOUTH-30909090117044

Protection Table

System	Possible Risk	Protection Method
Free Wi-Fi	Unauthorized people may access the network	Use a strong password and keep guest Wi-Fi separate from staff system
Cashier Device	A virus or malware could affect payments	Install antivirus, enable updates, and run a weekly scan.
Mall Website	An attacker could change the website content	Use HTTPS, a strong admin password, and update the website regularly

Employee Tips

- Do not open links or attachments in unknown emails.
- Use a strong password and do not share it.
- Lock the computer before leaving your desk.

CYBERSECURITY TIPS

Keep Future Mail systems safe.

DO NOT open unknown email links.

USE strong passwords.

LOCK your computer before leaving.
